

SIMPLIFY BUNDLED CARE

BEEWELL'S CUSTOM APPS FOR YOUR PRACTICE

80%

Up to 80% of what patients hear from their provider is forgotten immediately.¹

66%

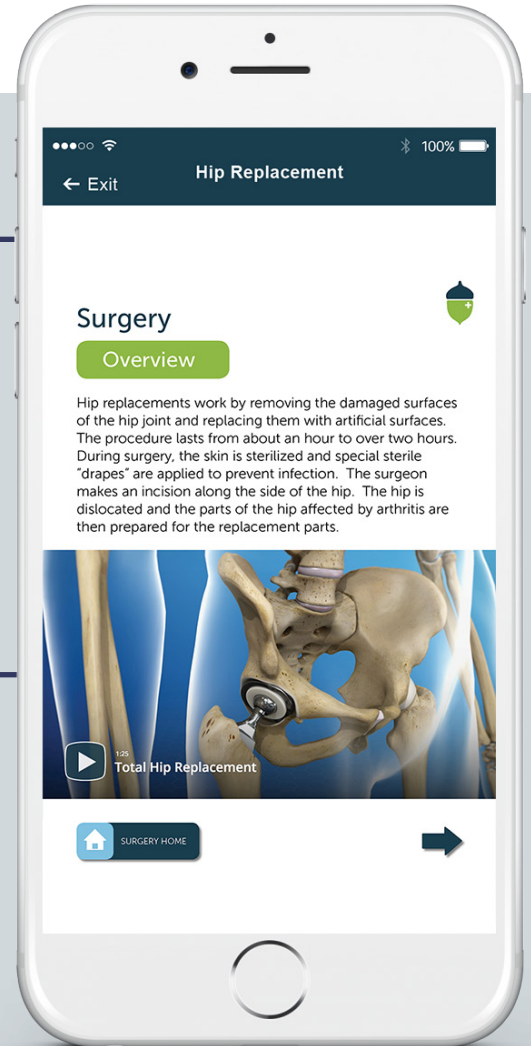

Internet links, embedded images and videos improve patient understanding by 66% over written materials alone.²

WELL ENGAGED

We know you work hard to provide great care, so let us assist you with keeping patients engaged and compliant. Our innovative approach improves the success of bundled care programs by making sure your patients are always on track.

WELL INFORMED

BeeWell apps allow people to navigate & better understand their medical care. Each app is customized for your practice and tailored to each sub-specialty using videos, links, and images to make sure patients are always well-informed.

WELL PREPARED

Better access to answers and directions means your patients are more satisfied and your practice fields less requests, emails, and phone calls—saving your practice time and money.
