

Swiss made!

A hana[®] table would not fit into here...

...but the new RotexTable[®] extension does!!

- E** - For minimally invasive anterior (DAA), antero-lateral approaches in THR, hip arthroscopies and lower extremity fractures
- E** - Motorized extension and flexion of the leg
- E** - Extended ROM in all anatomical planes, can be controlled by the surgeon
- E** - Saving storage space, time saving setup
- E** - Converts almost all surgical tables into DAA solution

Call us to inquire about a no-cost evaluation
