GREEN LEAF MEDICAL SOLUTIONS

Thumb Hole Design...

Adds extra layer of protection, while increasing comfort

EZ-Use Technology...

First EZ-USE on-off design ever in a reusable IG.

Eliminates Shortages...

Always have a fresh surplus of gowns at your disposal.

Green Leaf Medical Solutions, LLC...

- Is committed to creating, and providing the highest quality REUSABLE, washable isolation gowns (ANSI/AAMI PB70 level 2) available.
- Is DETERMINED to reduce the impact on the environment by the healthcare system's use, and waste, of single-use (disposable) wearables.

The impact that hospital systems have on the environment is at critical mass...

1

IMPLEMENTATION AND TRAINING

2 days Included with all orders over 10,000

2

EZ USE DESIGN

The first and only EZ-USE on and off design, preferred by Nurses, MDs and staff

3

REUSABLE UP TO 50X

Massive cost savings vs. disposables, paying for itself in as little as 8 uses

It has been reported from the Ontario Hospital Association, that single use, or disposable products used in the healthcare system, make up more than 1% of the total landfill mass in North America each year.

Hospitals produce more than 5 million tons of waste each year - that is about 29 pounds of waste per bed per day. An estimated 25% of the waste generated by a hospital is plastic. (Lee, Byeong-Kyu, Michael and Moure-Eraso, Rafael (2002). Analyses of the recycling potential of medical plastic wastes. Waste management (New York, N.Y.). 22. 461-70.)

Perceived cost savings is often the reason why disposables are used...

In many cases, however, disposables are more expensive in the long run. Yet, the lower upfront costs can make them enticing for procurement managers, tasked with saving money over a specific time period.

“Green Leaf Medical Solutions helps reduce waste while reducing cost simultaneously”

GREEN LEAF MEDICAL SOLUTIONS OFFERS:

1. The first and only “EZ USE” design, increasing wearability and ease of the on/off procedure.
2. Reduction of waste with reusable, washable material. Up to 50 uses per garment.
3. Decrease in cost per use; as low as .50 cents per use vs. circa \$2.00-\$4.00 per use with disposable comparatives, in recent cases, even higher.
4. Drastically decreases stressful product shortages; always have a surplus waiting on the demands of the day. With 100% American made confidence.
5. Up to 2 full days of implementation and training, to ensure that hospital staff and healthcare professionals are competent in the use of Green Leaf Medical Solutions EZ USE gowns (limited to orders 10,000 and over).
6. Direct shipments to multiple locations for larger healthcare systems with more than 1 location.
7. Piece of mind knowing that you are saving money, while helping reduce your facility’s impact on the environment.
