**MSRP \$49.99**

What doctors are saying about the go2pillow:

*“Along with chiropractic and exercise the go2pillow is the logical choice to help restore and maintain spinal health.” Nick Bravo, D.C.*

*“The go2pillow’s two pillow design provides support and versatility that is just not available in other medical pillows. More importantly my patients really like them and are more likely to use them and realize improved spinal health.” Brad Hochman, D.C.*

Available in Gray Black and Blue

To whom it may concern,

I have been a Doctor of Chiropractic for 22 years. The main focus of my practice is the treatment, clinical direction and documentation of Personal Injury patients. Patients who have sustained traumatic injuries and suffer from various neck and back conditions, as well as, injuries to their extremities. I have found that my patients have benefitted greatly from using the go2pillow. The benefits realized include pain relief, improved spinal alignment, support of weak muscles and an overall better night's sleep. In my professional opinion the spinal support the go2pillow provides at home and while at work compliments the treatment my patients receive while in my office and speeds up their recovery.

Sincerely,

Dr. Todd Surloff, D.C.

RE: My experience with the go2pillow

Dear Sir/Madam:

As a doctor and spine specialist who has been treating patients with spine injuries for many years, I am happy to recommend the go2pillow. Over the years my practice has used a variety of contour type support pillows. They were bulky and, honestly, most were not very comfortable. Therefore, patients did not use them much. I find that the comfort, support and versatility provided by the go2pillow is a much better alternative for my patients. The go2pillow's two pillow design provides support and versatility that is just not available in other medical pillows. More importantly my patients really like them and are more likely to use them and realize improved spinal health.

Yours truly,

Bradley Hochman, D.C.  
Chief Operating Officer, GSHW

Dear Mr. Vogel,

I strongly recommend the Go2Pillow to my patients complaining of neck and lower back pain. The cervical pillow is excellent for supporting and helping to restore the cervical curve that many patients have lost. The smaller lumbar pillow is perfect for car or air travel, supporting the lower back comfortably. Along with chiropractic and exercise, the Go2Pillow is the logical choice to help restore and maintain spinal health.

Sincerely,

A handwritten signature in black ink that reads "Nick J. Bravo, DC".
